WINSLOW, LANIER & CO., No. 52 Wall-st.

New-York, April 20, 1852.

THE GALENA and CHICAGO

THE GALENA and CHICAGO
UNION RAILROAD.—The Galena and Chicago Railroad, commencing at the City of Chicago, in the State of Illineis, runs to Freeport, in Stephenson County, a distance of 180 miles, at which point it connects with the Galena Branch of the Illinois Central Railroad, now being constructed to Galena and Dubque, in the State of lows, on the Mississippi River.

At a point thirty miles west of Chicago it connects with the Aurora Branch Railroad, now in operation thirteen miles, and which is about being extended by that Company to the Illinois Central Railroad, at a point sixteen miles north of the Illinois River. At Chicago, its eastern terminus, it will form connections with the Michigan Central and the Michigan Southern Railroads, constituting part of the main chain of Railroad line from the Atlantic cities to the Mississippi River and the North-west.

The Road is now completed and in operation eighty-four miles, eight miles from the town of Rockford, on the Rock River, to which place the work is in active progress, and it will be completed and put in operation by the let day of August next, the iron for this section of the Road being now on hand. The remaining portion of the work will be put under contract by the 20th May next, and probably be completed by June, 1855.

The Risco Central Railroad Company announce such state of progress as to have the connecting link from Freepow to the Mississippi completed early in the fall of 1935.

The grades upon the road are easy, the ruling grade west being 25 feet in the mile, and east 15 feet in the mile. The entire cost and equipment of the road will be about \$2,000,000. The amount of capital paid in the \$715,000, and a further amount of about \$200,000 has been subscribed, but not yet called in. There are bonds outstanding as follows: 1847,000 feet in the month of February, 1850, and completed and opened to its present point of terminus on the the 10th day of March last. The earnings of the road for the eleven months, from May, 1851, to April 1, 1852, were

months in 1830, '51, were \$115,002, on a distance run of 42 miles.

The gross carwings for the month of March last were \$217.00.

The Company, by resolution of 11th December, 1851, authorized an issue of \$600,000 of bonds for the construction of the third division of said Road from Rockfort to Freeport. These bonds bear interest at 7 per cent., and are payable in ten years from date of issue; and for the payment of principal and interest, the property and revenues of the Company are pledged. The interest and principal of these bonds are payable in the city of New-York, and the interest similarian annually by coupons attached, on the lat of February and August in each year. This issue is the final issue of the Company for the construction of said Railroad.

A portion of the bonds have been negotiated and a further amount are now offered for sale, which may be obtained on application to Messra. Duncan, Sherman & Co., bankers in the city of New-York, at whose banking-house the semi-annual interest on the bonds will hereafter be paid.

The ample resources of the country through which this line passes, to sarain a Railroad, have been fully demonstrated by the revenues of the Road tims far; and when it shall be connected with the Mississippi River, forming a main line of communication from Lake Michigan with the country on the upper Mississippi, and bringing it through the heart of the lead region, it may be confidently estimated to draw a traffic, proportional to 18 cest, second to no read in this country on the undoubtable character.—New-York, April 24, 1822.

Office of the Williamsurand date of the country tributary to it, renders the bonds now offered security of a most undoubtable character.—New-York, April 24, 1822.

OFFICE OF THE WILLIAMSBURGH GAS LIGHT CO.

ground, viz.

1852, at 12 o'clock, at the Merchants' Exchange, without reserve, to the highest bidder, the following choice lots of ground, viz:

Seventy-four Building Lots, forming the entire block of ground bounded by 3d-av., 4th-av., 10th and 101st-ats.

Also, 32 lots of ground bounded by 3d and 4th-ava, and by 90th and 100th-ats.

The above lots are all of full size, all beautifully situated for building purposes, and very desirable for persons of small means to purchase a fine building lot, or for capitalists to make safe and profitable investments.

It is high ground, and commands a splendid view of the East River. There is probably sufficient building stone on the property to build all the houses, and the surplus soil can no doubt be sold to salvantage, for filling up lots a few streets above, and in the immediate vicinity.

It is situated a few streets above the center of Yorkville, and near churches, school-houses, &c.

This property is admirably located for manufacturing purposes and business operations; its close proximity to the 3d and 4th-avs, and the Harlem Raircad, and in the vicinity of great improvements, renders it very desirable, and being accessible almost every hour of the day to the lower part of the city, makes it very convenient for persons doing business down town, or for the workingman or mechanic.

This property all lies in one body, and from its peculiar location and advantages must soon become a populous and very imporfant part of our ciry, and its purchase cannot but be assessed and very profitable investment of capital.

Title perfect and free from all incumbrances.

The terms of sale will be very liberal to the purchasers, as 75 per cent. of the purchase money can remain on bond and mortgage-for five years, at 6 per cent.

The sale will be positive, and all of the 125 lots will be sold without reserve to the highest bidder.

For further particulars apply to the anctioneer, No. 7 Broad-st, where maps describing the above property can be had.
